Demonstrating to the World Heritage Committee that the Nominated Property has Outstanding Universal Value is the main purpose of the Nomination Proposal, in particular through sections 3.a and 3.b of that document. If the World Heritage Committee confirms that the Nominated Property has Outstanding Universal Value and inscribes it on the World Heritage List, the Committee will adopt a formal Statement of Outstanding Universal Value for the property and will hold Canada, as a State Party to the World Heritage Convention, through the Stewardship Board, accountable for conserving, protecting and presenting this Outstanding Universal Value and transmitting it to future generations.

Amongst its functions is to review nomination proposals submitted by States Parties to determine whether the nominated properties meet the requirements for inscription on the World Heritage List, in particular whether the nominated properties have OUV. When the Committee inscribes a nominated property on the World Heritage List, it expects the relevant State Party and site manager to conserve, protect, and present this OUV and to transmit it to future generations. It becomes a stakeholder in the management of the property, with a duty to take an interest in the property’s state of conservation. ## 2.0 PURPOSE

The purpose of this MOU is to set to the means by which the Parties agree to collaborate through mutual understanding and assistance to manage the Nominated Property.

### **3.0 SCOPE**

The scope covers the relationship between the Parties both during the period following the submission of a Nomination Proposal to UNESCO and a decision by the World Heritage Committee on that Nomination Proposal, and after that decision in the event of a successful inscription.

Any reference in this MOU to a WHS at Grand Pré is conditional to a successful inscription by the World Heritage Committee.

### **4.0 BACKGROUND**

Grand Pré has been on Canada's Tentative List for potential World Heritage inscription by UNESCO since 2004. As such, it is proposed by Canada as a candidate for inscription on the World Heritage List, the highest possible international recognition for cultural and natural heritage sites. It is a distinction that if achieved would bring greater international attention to an extraordinary place, one that is already celebrated by various provincial and national designations.

The Nomination Board has been actively working since 2007 at developing a nomination dossier for submission to UNESCO. The Nomination Board has been conducting research, public engagement activities, and Management Planning exercises to prepare a solid proposal. The support of the local area communities and stakeholders and that of government departments and agencies at the federal, provincial and municipal levels has been instrumental in the completion of the Nomination Proposal.

Following the submission of a Nomination Proposal to UNESCO, a review process is led by ICOMOS which lasts 18 months. A decision is made by the World Heritage Committee once a year.

There are multiple Regulatory Authorities active in the Grand Pré area. Consequently, and in line with the requirement outlined in the *Operational Guidelines* to develop a management plan and identify an entity responsible for the management of the World Heritage Site, the Parties have developed jointly a Management Plan and are setting up a governance structure for the World Heritage Site. The Management Plan relies on the Regulatory Authorities for its implementation.

### **5.0 STATEMENT OF COMMITMENT**

- 5.1 The Parties agree to continue supporting the Nomination Proposal and the Nomination Board up until a decision by the World Heritage Committee is made.
- 5.2 The Parties agree to establish a framework which will govern their actions in the implementation of the Management Plan to ensure the integrity of the Nominated Property and of the WHS.
- 5.3 The Regulatory Authorities agree to provide mechanisms, including timetables, to consult and receive recommendations from the Nomination Board on issues pertaining to the management of the Nominated Property and from the Stewardship Board on issues pertaining to the management of the WHS, including on means to protect its OUV.
- 5.4 The Parties agree to protect the Nominated Property as described in the Nomination Proposal until a decision is made by the World Heritage Committee.

5.5 The Parties agree to protect the OUV of the WHS, and the resources and attributes of the WHS that are recognized as the basis for its OUV, as recognized by the World Heritage Committee at the time of the inscription of Grand Pré on the World Heritage List.

5.6 The Parties agree to apply the following principles to guide their actions during the term of this MOU:

Principle 1: Management of the Nominated Property will meet or exceed World Heritage standards regardless of inscription.

Principle 2: The primary focus of the Management Plan is to address issues directly related to the management and conservation of the WHS's OUV and attributes by providing a framework for advice from the Stewardship Board and for decision-making for the Regulatory Authorities.

Principle 3: The Management Plan recognizes that the Nominated Property is set within an active agricultural community where people continue to live and work. People have created, lived and worked on this land for generations and have been responsible stewards of the land. The Management Plan also recognizes that this is an area of great importance for the Acadians who have a strong emotional attachment to it.

Principle 4: Management of the Nominated Property in relation to World Heritage guidelines will be a shared responsibility among the different owners, communities, and government entities with regulatory responsibilities for the Nominated Property. The Management Plan recognizes that actions undertaken by an owner, community, or government entity with regulatory responsibilities may have a detrimental impact on the Nominated Property and that communication, coordination, and collaboration are essential to its long-term protection.

Principle 5: Management and protection will be delivered through existing boards, bodies, and government authorities, supplemented by technical advice, interpretation, and education from the Stewardship Board and procedures developed to accommodate a designated World Heritage Site.

5.7 In addition, the Parties agree to pursue the following goals and objectives in relation to the management of the Nominated Property during the term of this MOU:

*Goal 1: To provide for the protection, continuing community and agricultural use and appreciation of the Nominated Property by:*

- a) Ensuring that agriculture remains a vibrant economic activity of the community;
- b) Dedicating resources to the monitoring and maintenance of the dykes;
- c) Preserving and enhancing the memorials reflecting the enduring importance of the area for the Acadians;

- f) Informing visitors to the community, through signage and brochures, of the need to be mindful that they are entering an active agricultural community; and,

- g) Working with the Marsh Body to ensure that visitors have access to the values of the WHS without interfering with the ongoing agricultural use of the marshland.

*Goal 2: To enrich the existing tourism destination by promoting wide recognition, understanding and appreciation of the educational and cultural values represented by the Nominated Property by:*

- a) Developing programs, activities, tools, and interpretation that raise awareness of the importance of the landscape for the different communities, including the Mi'kmaq, the Acadians, and the descendants of the New England Planters;
- b) Promoting visitation through regional, national and international media;
- c) Ensuring that promotion is managed responsibly in all aspects of publicity in relation to the Nominated Property in accordance with UNESCO guidelines.
- d) Developing tools and interpretation on the history and importance of agriculture;
- e) Continuing to raise awareness about the Acadian people and the way they overcame their forced migrations of the 18<sup>th</sup> century; and,
- f) Developing partnerships with existing World Heritage Sites.

*Goal 3: To instill a strong sense of shared community pride and stewardship in the protection, interpretation and promotion of the Nominated Property by:*

- a) Providing for community input and encouraging community participation;
- b) Engaging Acadian, local and other stakeholder communities in activities that celebrate the importance of the Grand Pré landscape;
- c) Employing a governance model to ensure that the interests and concerns of local residents and the Acadian community are heard, discussed, and reflected in the advice to the different Regulatory Authorities;
- d) Ensuring the local and Acadian schools are provided sufficient information and opportunities to incorporate the experience at Grand Pré into their curriculum.
